collection of all the software needed to create digital images, animations, videos, graphics, web pages, etc. Photoshop Elements was first released in 1998. It was until 2020 when it got the latest version (PSE-2020), which came with many new features such as the Aviary Suite. Here is a comparison table between PS Elements and

Photoshop. In this article, we'll have a closer look to the new features in Photoshop Elements (PSE-2020) Table of Contents The latest version of Photoshop Elements contains the new Aviary. Photoshop Elements 2020 is a complete redesign of the interface, giving it a classic look similar to the old version of Photoshop. You may even encounter some glitches with certain themes installed on your computer. You can download the latest version of Photoshop Elements from this link. Designer The new version of Photoshop Elements

---

comes with a redesigned interface that's similar to the Photoshop CS versions. Users can now easily navigate around the interface thanks to the sidebar. All panels remain available at any time and new ones appear as you are working. The shortcut menu has been replaced by buttons on each panel. As you can see below, the same buttons to create

new adjustments also open up the detail panels, new tools, and adjustment dialogs. To exit this mode, you need to select one of the buttons and click it. I'm usually really pissed when my friends (or my mom) call me and say something like "You're so white". Growing up being called white was like getting hit with a blunt object that made me feel depressed, like being a little kid and being teased in gym class... or a high school flashback that

---

made my skin crawl and made me feel really embarrassed. When my dad was growing up, he was “Mexican” and didn’t have money so he tried to pass as white so he could work and not get in trouble. It’s not that he didn’t feel like he was white, but I feel like I’m white in a way where I have to think about what I’m thinking and say

---

before I speak. I'm proud of my heritage and I'm proud of the fact that I'm a "white" girl, but there's a sense of shame that I have to even mention that it's a blessing to be in a part of the world with so many other cultures and so many different colors. It's not just white people who can feel these things. Seeing the world through the lens of race is not only

---

for white people, it's for any kind of person who believes things can't be black and white. Quinn: I'm pretty sure that having to work with my family because of my skin color has been an issue. When I grow up and get older, I'll remember what it was like being in this situation. I grew up in a really black neighborhood. We got attacked and called

---

“Nigger” almost every day. I watched the doors of my neighborhood close as my mom’s family moved out and my dad’s family moved in. As much as my dad was interested in his neighborhood, he was not interested in us. He wouldn’t even call me his daughter. I wish he could have been there for us and our family but he wasn’t. I realized later on

---

in my life that this environment has affected my relationships with people who weren't even alive when I was a kid. It's obvious to me now how the world is designed to make people think that being white is a "good" thing. I've met white kids who say
