About This Game

Notice: The game can be played using Mouse+Keyboard and/or in VR (HTC Vive, Oculus Rift).

Everyone can shoot, but not everyone can gun. In this first-person shooter you will need to fight for your life. You will need to show full awareness in order to fulfil the game goal of finding 12 documents in a procedurally generated level protected by machines that don't even know what mercy is.

You will be equipped with a weapon and some spare ammunition but be aware that you will definitely need to scavenge for more to fight the machines. To even stand a chance you will have to operate your weapon in full detail. Use the keyboard (keys can be remapped) in the Mouse+Keyboard version. Use motion controllers in the VR version.

Good luck!

Key features:

- Ability to play with Mouse+Keyboard and/or in VR (HTC Vive, Oculus Rift)
- Procedural generated level with high replayability
- Hyper-realistic and detailed weapon mechanics

-
- Simulation of gun malfunctions (failure to eject and double feeds)
 - Realistic bullet ballistics based on real life formula including bullet drop, bullet travel time and ricochets
 - Localized sounds for an even more immersive experience
 - Key remapping (for the Mouse+Keyboard implementation)
 - More to come

Title: I Can Gun
Genre: Action, Indie, Early Access
Developer:
Koenigz
Publisher:
Koenigz
