I played this game way back when. This was one of my favorite games for the computer at the time, up there with Insaniquarium and Snail Mail. Solid gameplay, easy to play, difficult to master, much like most Pop Cap games. It is a crime how overlooked this game is. Buy it now.. It was a good. Just bought it for nostalgia.. Has it aged well? Not really. Graphics-wise, it's a little dated, but somehow that just makes it more endearing to play. Like many previous reviewers, I remember playing this as a kid, and got a huge amount of satisfaction beating the 'boss' because I couldn't when I was younger. Not incredibly challenging, but fairly good fun.. A really nostalgic game, I believe It aged gracefully and still Is a good game to kill time. I played this when I was four or five, I guess my father downloaded It for free so I could play. I forgot about the game until I saw him on 50% off, I decided to buy It because It gave me so much fun In the past and now I could support the game buying It. If you play pirated games, buy them one day to support the creators. Popcap made a nostalgic and funny game who deserved my support.. A really nostalgic game, I believe It aged gracefully and still Is a good game to kill time. I played this when I was four or five, I guess my father downloaded It for free so I could play. I forgot about the game until I saw him on 50% off, I decided to buy It because It gave me so much fun In the past and now I could support the game buying It. If you play pirated games, buy them one day to support the creators. Popcap made a nostalgic and funny game who deserved my support.. Weeeell, I don't really recommend this game. It has aged, but not exactly gracefully. It's not horrible either. But it just isn't really good either. For 5u20ac, it's too little. I bought it in the Popcap Bundle, so it was alright, I guess? Still, for demanding 5u20ac and then giving you relatively monotonous gameplay. it's too much money. It's just too much for so little actually happening. That's why I wouldn't recommend buying this game. Oh, and just for the sake of completion: You play as one of four heroes to save the Iggles, a race of furry little creatures color-coded and caught in bubbles by some kind of evil force. Yeah. That's the sum of it. You move through a little labyrinth, collect the Iggles, avoid the baddies, and send the Iggles home with the appropriate home fields. And. that's it. For 101 levels in Adventure mode. Yay.. It was a good. Weeeell, I don't really recommend this game. It has aged, but not exactly gracefully. It's not horrible either. But it just isn't really good either. For 5u20ac, it's too little. I bought it in the Popcap Bundle, so it was alright, I guess? Still, for demanding 5u20ac and then giving you relatively monotonous gameplay. it's too much money. It's just too much for so little actually happening.
